2023 Product Launch Presentation

imageRUNNER ADVANCE DX

Supporting customers' digital transformation initiatives through advanced scan functionality and cloud-ready capabilities.

2023 Models Key Value Areas

Security

Additional Security Features

Works Towards New Industry Standards

Easy System Recovery

Sustainability

Environmentally Conscious

Product Parts Designed with Sustainability in Mind

Packaging with Environmental Considerations

Serviceability

Increase of Shared Common Parts

Helps Improve Inventory Management

What is New in 2023?

Product Enhancements & Changes

Security

- Automatic Recovery at Startup (Supports NIST SP800-193 “FW Resiliency” efforts)*
- “McAfee Embedded Control”* status screen on user interface
- New Storage Chip incorporates two encryption keys for greater resistance to attacks, and supports FIPS140-3 (*Pending validation*)

Sustainability

- Improved Typical Electric Consumption (TEC) values (C3900 & 4900 Series)

Additional Notes

- Bluetooth and Motion Sensor feature are no longer available
- Wireless Connectivity available as an optional accessory

* This feature is off by default and must be turned on. Warm up times are affected once turned on.

2023 Model Transitions

8900 Series— A3 BW New Model Transition

2023 Model Feature Summary

✓ Newly Supported	✓ Supported with Predecessor	- Not Supported
-------------------------	---------------------------------------	-----------------------

Categories	Features	8900 6980i	4900 C3900	C359iF 719iF
Security Features	Automatic Recovery at Startup (NIST SP800-193)*	✓	✓	✓
	Storage Encryption (FIPS 140-3) (FIPS 140-3 pending validation)	✓	✓	✓
	McAfee Embedded Control Status Display*	✓	✓	✓
Sustainability	Lower Temperature Fixing Toner (compared to prior series models)	-	✓	-
	Drum Cover from 100% Regrind Plastic	-	✓	-
	Environmentally Conscious Packaging	-	✓	-
Serviceability	Helping to extend consumable parts estimated life	-	✓	-
	User replacement for some consumable parts**	-	✓	-

*This feature is off by default and must be turned on. Warm up times are affected once turned on.

** Customer replacement of key parts is at dealer's discretion.

Additional Notes

Options and Accessories

- Finishing and paper handling accessories common with predecessor models will be available, with the exception of the imageRUNNER ADVANCE DX 719iF Series optional paper cassette.
- Upright control panel and imagePASS controllers will no longer be supported for the iR ADV DX 8900 Series and 6980i model.

Solid State Memory Drives

Standard with all
2023 Models

Solid State Drive (SSD)

- ✓ Newer technology that uses flash memory storage.
- ✓ No moving parts compared to spinning disk with HDD.
- ✓ SSD is designed to help maintain a high level of data security, removing the need for multi-pass “zeroing” of data.
- ✓ SSD is generally faster than HDD at accessing files.

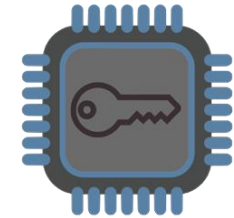

Storage Encryption

What's New?

- New security chip that is capable of more robust coding, with the use of two encryption keys.
- Stronger data coding helps to make decryption extremely difficult.
- Pending Validation of FIPS 140-3

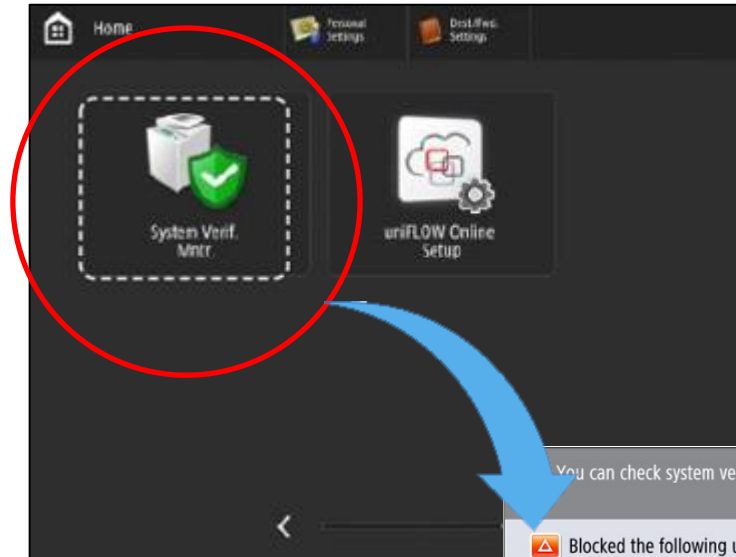

What is FIPS 140-3?

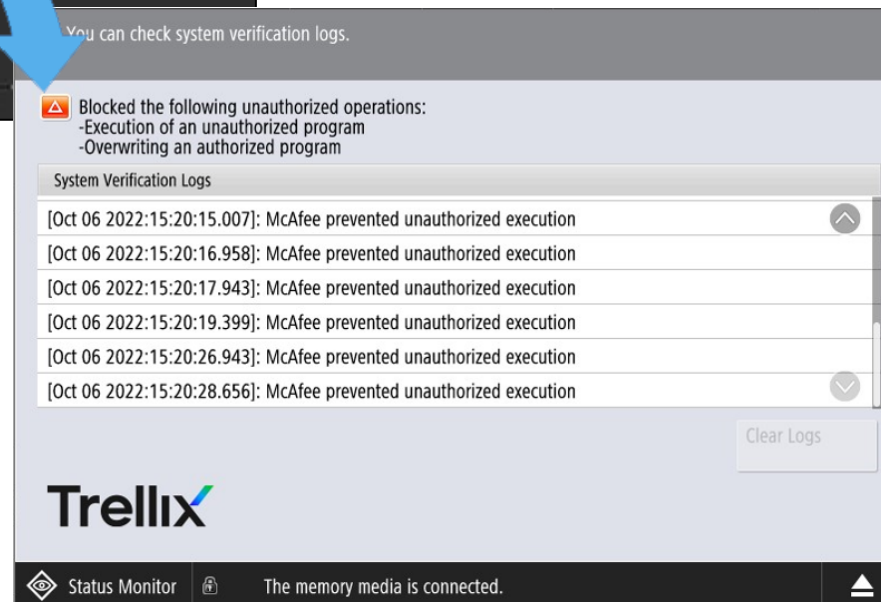

- Federal Information Processing Standard (FIPS) 140-3
- Established by the National Institute of Standards and Technology (NIST)
- Latest benchmark for tampering-prevention security
- Applicable to federal agencies, but referenced by many security-conscious organizations as the benchmark
- No validation certificates have been issued as of April 1, 2023 (certificates pending)

*Note: Select 2022 models are eligible with next firmware upgrade. (4800, imagePRESS Lite C265/270)
Select eligible 2021 models: C5800, C3800, 6800, C578*

McAfee Embedded Control Status Display

- ✓ Displays Trellix activity and security logs.
- ✓ Administrators now have visibility from the local user interface for activity monitoring and control.

App will show security prevention activity in display window.

If no unauthorized activity is detected, window will show empty.

** This feature is off by default and must be turned on. Warm up times are affected once turned on.*

Automatic Recovery at Start-Up

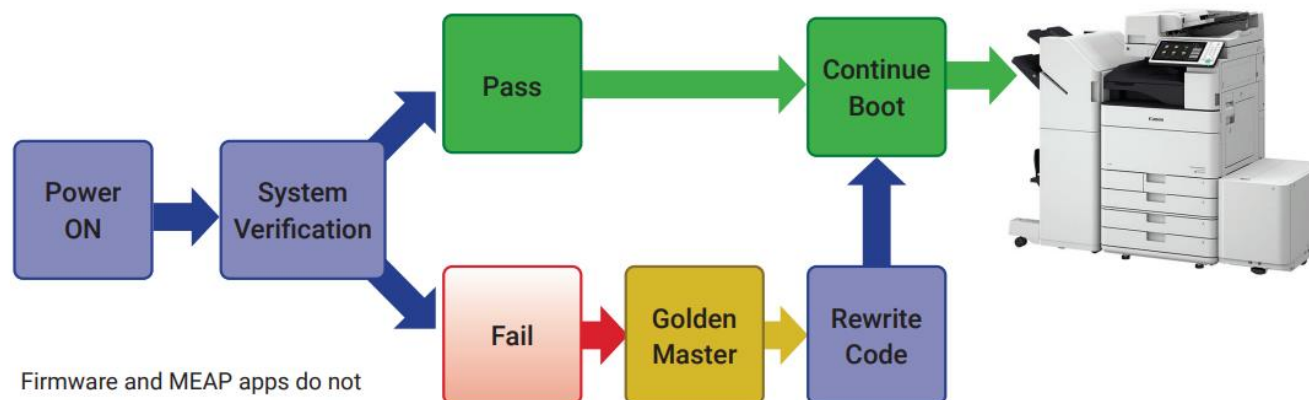

(Helps support NIST SP800-193 standards)

Standard with all
2023 Models

- ✓ Upon failed validation, the system will recover using a Golden Master and the device will continue to boot to a known (secure) state.
(Earlier models halt booting upon a failed validation.)

- ✓ New auto recovery helps meets industry guidelines for system self-resiliency.
- ✓ Automatic recovery of the BIOS if it is attacked and/or compromised.

Firmware and MEAP apps do not have a golden copy, but are constantly monitored to prevent rewriting with McAfee Embedded Control.

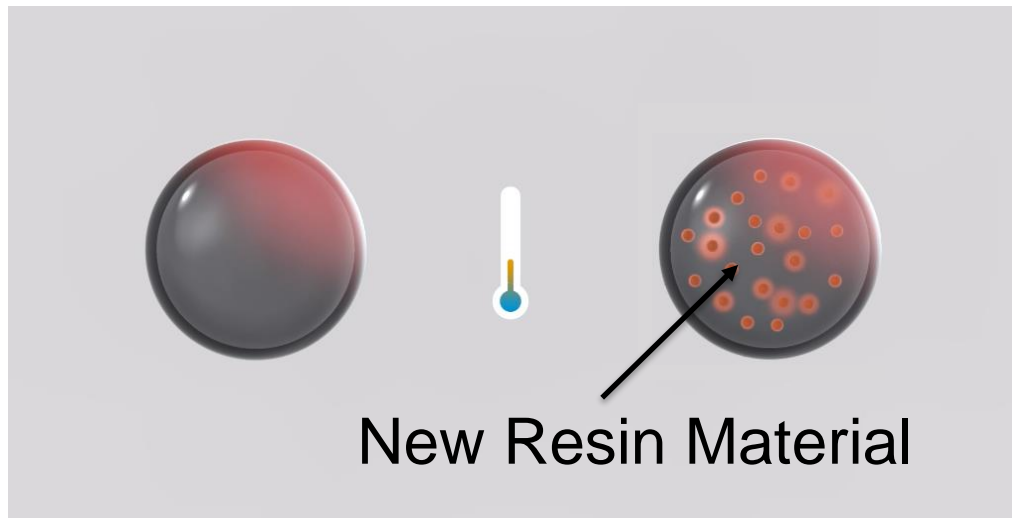

** This feature is off by default and must be turned on.
Warm up times are affected once turned on.*

Low Melting Temperature Toner

Helps reduce electric power required for fixing.

Available with 4900 & C3900 models

New toner supports lower temperature melting point than predecessor models!

Low
Melting Point
Contributes
To

Quick start up time of the device.
(WUT/Sleep Recovery/FCOT)

Maintains high print quality
at productive print speeds.

Lower energy consumption.
Lower TEC Values.

Helps to extend lifetime of the ITB
Unit and waste toner cartridge.

(TEC = Typical Energy Consumption)

Environmentally Conscious Parts & Packaging

Standard with C3900
& 4900 Models

- ✓ Canon has converted to environmentally friendly, full cardboard packaging on specific models.
- ✓ Drum cover is converted from new plastic to reused material, helping to reduce environmental impact.

- ✓ Easier to fold and compact
- ✓ Takes up less space for waste
- ✓ Environmentally friendly

1

Leftover/scrap material is collected.

2

Material is shredded into smaller (regrind) plastic.

3

Regrind plastic is then melted and formed into new parts.

IPP Everywhere Support

OS standard print for Chrome and Linux that allows computers and mobile devices to print without using specific software.

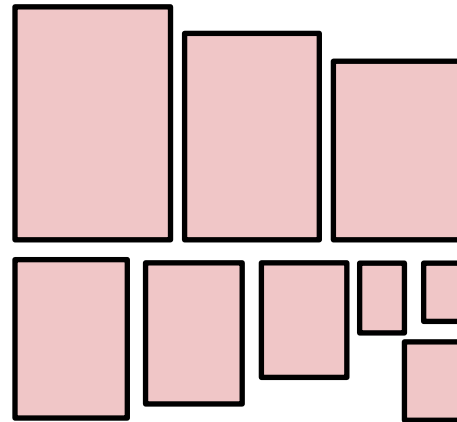

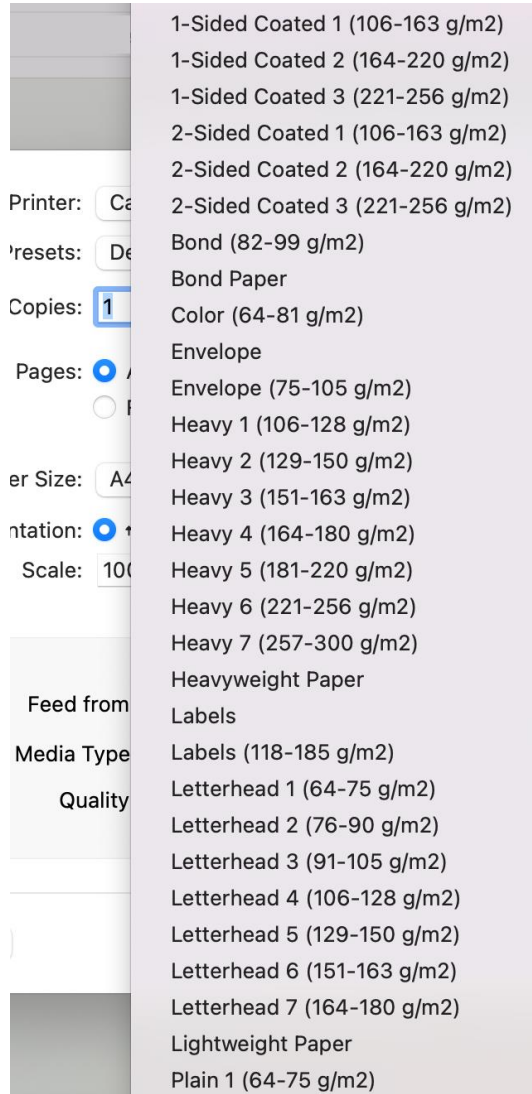

Google discontinued Google Cloud Print in Dec 2020.
Announced Chrome OS support for IPP Everywhere.

Canon includes IPP Everywhere support.

OS	macOS/iOS	Android	Windows	Chrome OS	Linux
Standard	AirPrint	Mopria (IPP base printing)		IPP Everywhere (IPP base printing)	

IPP Everywhere Wide-Range Media Types

- Users require standard OS print capabilities and expect the same experience (and paper selection) as using a Canon print driver.
- Supports additional media types printing from Chrome or Linux OS.

Color Profile Adjustment

Without Service Tools

Standard with iR ADV DX
C5800, C3800, C3900,
C359iF, iPR Lite C270

New Benefits

Create a profile and adjust color without any service tools.

1. Download and print color chart
2. Adjust color values
3. Save as new profile

<Edit>
Specify the target RGB values, and the numbers on the charts for the desired output color.

Enter using the numeric keys.

Target RGB	Output Color
R 255 (0-255)	Sheet No. 1 (1-8)
B 128 (0-255)	Row 27 (1-27)
	Column 12 (1-27)

Cancel OK

<Register Color Profile>
Changes will be effective after performing Apply Setting Changes.

To register a color profile, first refer to the manual (User's Guide) and print the appropriate chart to use for one of the following.

Assign RGB Values to Output Colors in Color Chart

Assign specified RGB colors to output colors in the color chart for a selected color profile.

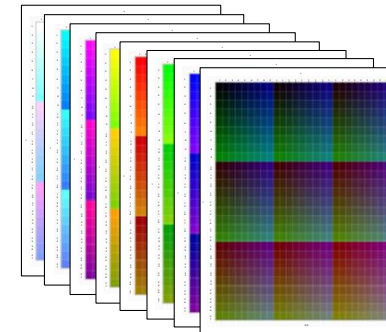

Select an item to set.

Top	Fine Adjust Zoom
Adjustment/Maintenance	Dither Pattern Settings ▶ Pattern 1
Adjust Image Quality	Adjust Toner Volume Used for Color Printing ▶ Off
	Special Smoothing ▶ Off
	Register Color Profile

2023 A3 BW Model Spotlight

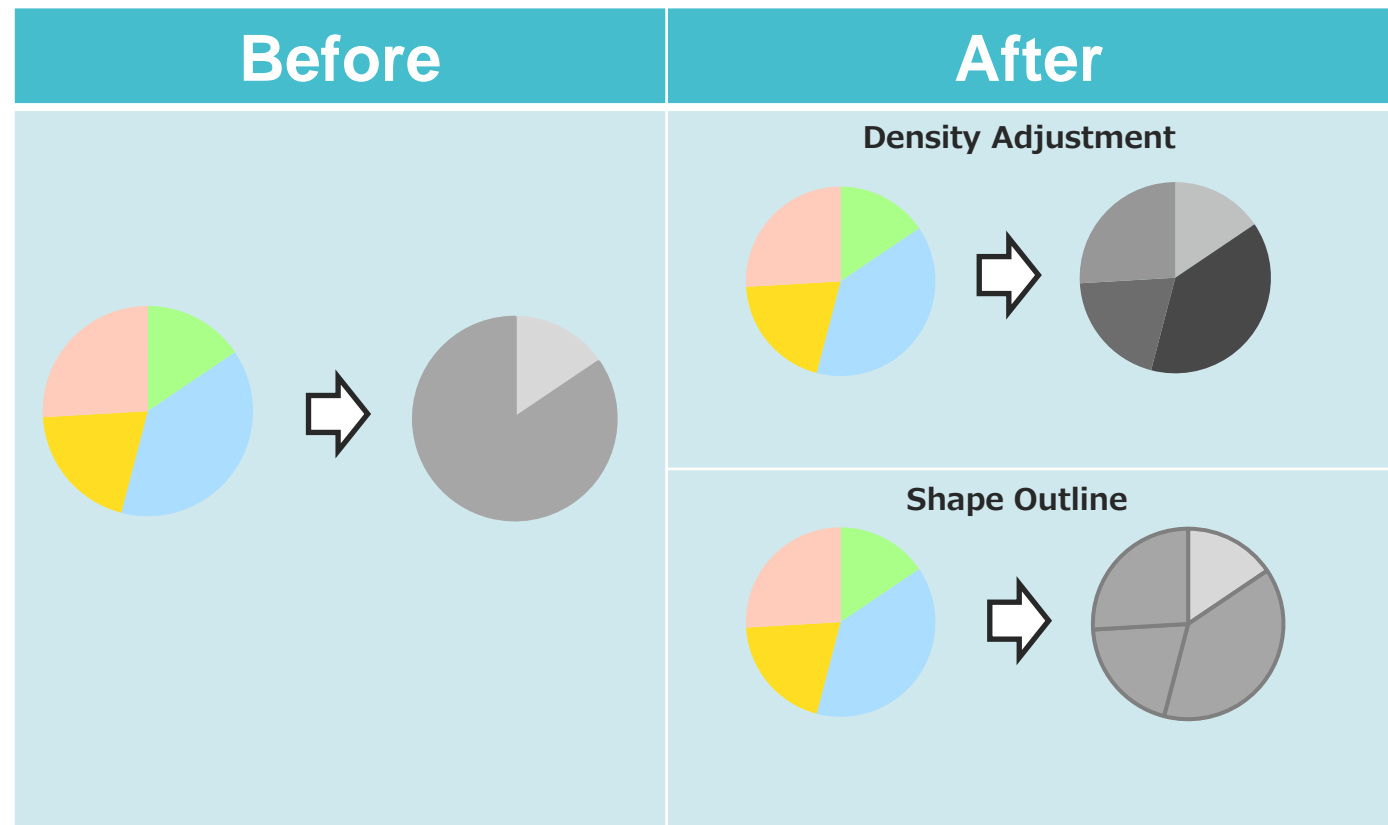

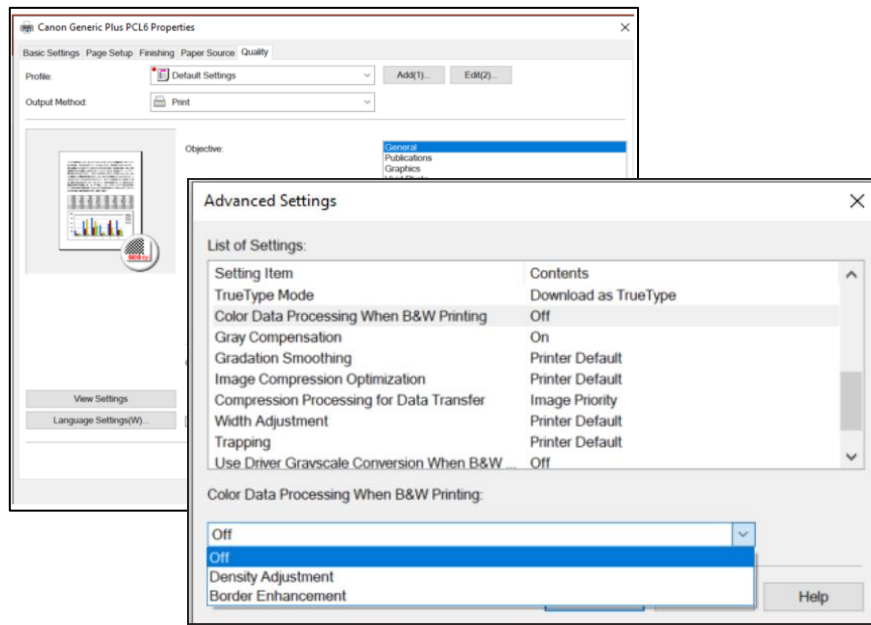

Improved Distinction Between Grays for BW Printing

Standard with iR ADV DX
C3800, 4800, C3900, 4900,
C5800 & C359iF Series

Users can select two types of quality improvements when printing closely toned colors in monochrome output through the print driver setting!

- ✓ **Density Adjustment**
- ✓ **Shape Outline**

imageRUNNER ADVANCE DX 8900 Series

INTRODUCING

imageRUNNER ADVANCE DX 8905i/8995i/8986i

- ✓ BW A3 Model 
- ✓ Print speeds up to 105ppm
- ✓ 4,360 standard paper sheet capacity
- ✓ 270ipm scan speed
(300dpi) (BW/Color, Duplex)
- ✓ SSD with 256GB
- ❖ Positioned for customers who need fast, reliable, BW printing with an assortment of finishing accessories and customizable options.

*Upright Control Panel & Fiery Controller no longer supported.
